### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edmond A. DeFrank on 4/19/04.

The application has been amended as follows:

#### IN THE CLAIMS:

In claim 8, line 1, replace "claim 2" with "claim 7".

In claim 10, line 1, replace "claim 4" with "claim 9".

In claim 12, line 1, replace "claim 6" with claim 11" and

At the beginning of claims 7-8 and 10-12, replace the claim identification "previously added" with "previously presented".

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach a process of forming a fluid ejection device which includes the step of forming a thin-film structure including a heating element and an orifice layer that defines a firing chamber disposed over the heating element.

The prior art also does not teach forming an aperture through the first surface to define a fill channel that is filled with a filler material and then removing the filler material and fluidically coupling the first fluid channel with the interface and the firing chamber via the second fluid channel as claimed.

3. The closest prior art Kubby (5,851,412) disclose a process of making an ink or fluid ejecting device, wherein a heating element (18) is suspended in each ejector but fail to teach that the firing chamber is disposed over the heating element as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
